

ONLINE BADGES

in the Level Up! course

WELCOME TO ONLINE BADGE SYSTEM ON OUR MOODLE PLATFORM

ELECTRONIC OPEN BADGES are digital credentials that represent the skills, achievements or certifications acquired by an individual. They are designed to be shareable and verifiable across different platforms, using open standards such as the Open Badges standard developed by Mozilla. Each badge contains metadata describing the criteria for earning the badge, the issuing organization and proof of achievement. These badges can be displayed on professional profiles, social media and digital CVs, increasing the visibility and recognition of one's skills and achievements. They support lifelong learning by providing a portable and transparent way to showcase one's skills and educational milestones.

Referring to the LEVEL UP! course, online badges prove that you are a professional language educator/tutor who can also contribute to the content of the course offered, through the completion of relevant and content-related sections. Check how it works below.

LET'S START HERE!

Tutors who go to the final evaluation via screenshot 1 and complete the three questions in the evaluation form in screenshot 2, will automatically receive an e-mail based on the template in screenshot 3 which includes the url-address to their personal online badge as shown in screenshot 4.

Level Up! Courses and resources for English teachers
